COMMUNICATION & MEDIA

Coffee is not just coffee anymore; it is a discovery of new flavors and mixes, matching the trendiest lifestyles. Coffee brands worldwide are delivering innovative products and serving styles, leading to revised rituals and taste preferences. Seductive and stylish, yet technical, the science of coffee is injecting a new dimension on how it is served in cafés, at home or even at the office.

Sentido means “feel, notice or perceive” and evokes the sensorial properties of the modern coffee flavors and mixes. This “new coffee” experience claims a distinct shape that can become a statement of the reinvention of coffee culture.

This range includes 4 multipurpose capacities, holding a contemporary Scandinavian design with a touch of retro. The round handle, the sturdy base and the smooth lines make *Sentido* the ideal solution for the multiple demands of the foodservice industry. With its functional simplicity and timeless silhouette, *Sentido* fits both traditional coffee and original mixes.
